

WEBINAR:

“SDG 12.1 Reporting for SWITCH-Asia Countries – Connecting the dots between actions and reporting”

Report

Name: SDG 12.1 Reporting for SWITCH-Asia Countries – Connecting the dots between actions and reporting

Date: 5 November 2019

Venue: Online (Webinar)

The activity was co-organized with One Planet network and participants included 10YFP National Focal Points and SWITCH-Asia National Focal Points.

Objectives

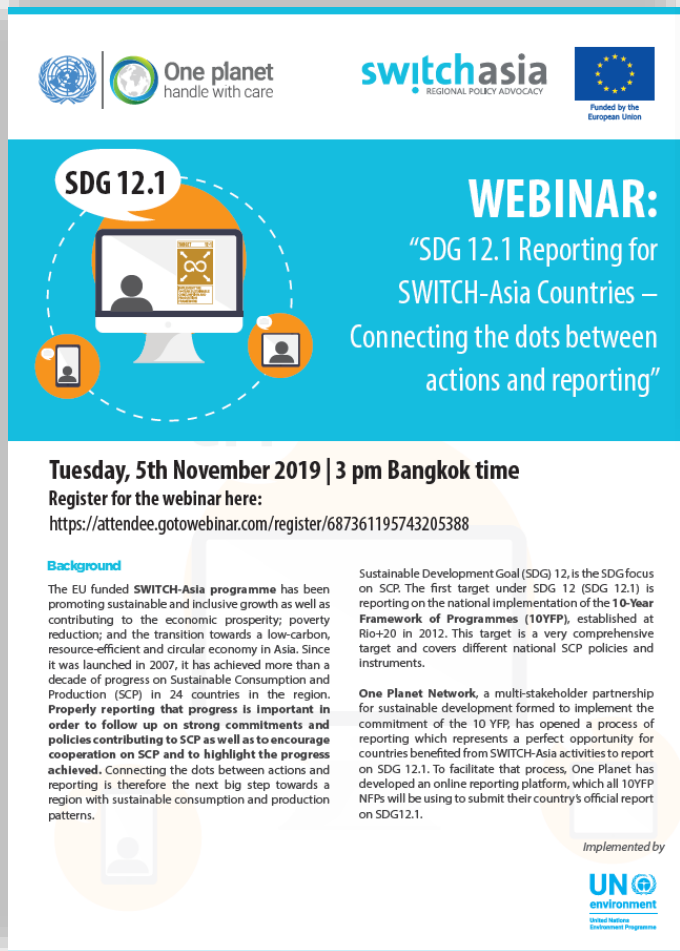

The webinar was aimed at supporting countries to report on SDG 12.1 by:

- Understanding the important link between SWITCH-Asia’s achievements in the region and the use of the reporting platform that has been developed by the 10YFP Secretariat to report SCP national achievements.
- Explaining what to report under SDG 12.1.1 and how to give visibility to your country’s achievements.
- Building capacity on how to collect data and information, and how to use the dedicated reporting platform.
- Bringing 10YFP National Focal Points and SWITCH-Asia National Focal Points to work together on integrating the relevant information into the official report on SDG 12.1.

Highlights

- During the webinar, participants (10YFP National Focal Points and SWITCH-Asia National Focal Points) were encouraged to work together on integrating the relevant information into the official report on SDG 12.1.
- SWITCH-Asia RPAC was introduced to the participants and its different activities to support SDG12 Reporting were exposed.
- An assessment of the current status of the reports in Asia was done.
- The webinar exposed why, how and what to report on SDG12.1.
- The importance of reporting in order to accelerate the implementation; share the challenges and lessons learned with others; and get international recognition was emphasised.
- Examples of policies, guidelines, strategies or other instruments that countries could report on were provided.
- Participants were informed that the One Planet Network has recently extended the deadline to report through its online platform until the 6 January 2020.
- Participants were trained on how to use the dedicated reporting platform to report on a new policy.
- Participants understood the importance and the need of reporting in order for countries not to be detracted from their efforts and progress on the implementation of SCP.

Background
The EU funded SWITCH-Asia programme has been promoting sustainable and inclusive growth as well as contributing to the economic prosperity; poverty reduction; and the transition towards a low-carbon, resource-efficient and circular economy in Asia. Since it was launched in 2007, it has achieved more than a decade of progress on Sustainable Consumption and Production (SCP) in 24 countries in the region. **Properly reporting that progress is important in order to follow up on strong commitments and policies contributing to SCP as well as to encourage cooperation on SCP and to highlight the progress achieved.** Connecting the dots between actions and reporting is therefore the next big step towards a region with sustainable consumption and production patterns.

Sustainable Development Goal (SDG) 12, is the SDG focus on SCP. The first target under SDG 12 (SDG 12.1) is reporting on the national implementation of the **10-Year Framework of Programmes (10YFP)**, established at Rio+20 in 2012. This target is a very comprehensive target and covers different national SCP policies and instruments.

One Planet Network, a multi-stakeholder partnership for sustainable development formed to implement the commitment of the 10 YFP, has opened a process of reporting which represents a perfect opportunity for countries benefited from SWITCH-Asia activities to report on SDG 12.1. To facilitate that process, One Planet has developed an online reporting platform, which all 10YFP NFPs will be using to submit their country's official report on SDG12.1.

10-Year Framework of Programmes on Sustainable Consumption and Production
Reporting on SDG12.1

Implementing SDG 12

With the support of the European Commission

What is SWITCH-Asia?

12 RESPONSIBLE CONSUMPTION AND PRODUCTION

MAIN OBJECTIVES

- Promote sustainable development.
- Contribute to economic prosperity and poverty reduction in Asia and Central Asia.
- Contribute to a transition towards a low-carbon, resource-efficient and circular economy.

WHERE WE WORK
Total 24 countries in Southeast Asia, South Asia and Central Asia

SWITCH Asia

SWITCH Asia I - 2007-2014
SWITCH Asia II – 2017-2021

Implemented by UN environment

Policy Advocacy Component

Managed by UN environment

Grant projects on the ground

Supported by giz, adelphi, IGES

SCP Facility
